

# Green Planet Daycare Guidance Policy

The goal for guiding children's behavior in Green Planet Daycare is to assist children in developing respect, self-control, self-confidence and sensitivity in their interaction with others. Guiding child's behavior is an ongoing process. Guiding children's behavior is done while appropriate behavior is occurring, as well as before, during and after socially unacceptable behavior is displayed.

Green Planet Daycare child setting has no physical acts of punishment, isolation, humiliation or withholding basic needs. The wellbeing of all the children's in Green Planet Daycare is very important. If any challenges/ difficulties occur in the care, Green Planet Daycare will inform the parents.

**Green Planet Daycare use positive guidance techniques to encourage appropriate behavior, such as:**

- Establishing clear, consistent and simple limits
- Stating the limits in a positive way, rather than a negative way
- Focusing on the behavior not on the child
- Providing real choices
- Allowing time for children to respond to expectations
- Reinforce appropriate behavior, with both words and gestures
- Encourage children will learn they are important, loved and protected.
- Gain attention in a respectful way (use calm, controlled voice)
- Reminding children of appropriate behavior

- Offer appropriate choices
- Use natural and logical consequences
- Provide opportunities for children to make amends. rather than demand a superficial apology.
- If the child doesn't respond to my guidance I will talk with the parents.
- If the child continues miss behavior green planet daycare has a right to give one month notice to leave the daycare for the child

Our environment is child -friendly with child size equipment, and shelves that are child height, promoting children independence.
