

Green Planet Daycare Emergency Prepared Plan (Earthquake)

To be prepared for the earthquake, we practice once a year.

If children and staff are **inside** the daycare, Green Planet Daycare will do the following:

- Stay inside
- Stay out of the kitchen, corners and doorways
- Take cover under the heavy table, desks and solid furniture
- Hold our head down and tuck in arms and legs (Be prepared to move with furniture)
- Teach children how to drop, cover, hold and protect their faces, also keeping their hands off the floor.
- Get away from any area near glass windows (likely to explode inward)

If children and staff are **outside**, Green Planet Daycare will do the following:

- Get away from the building and from any wires that could potentially fall
- Take cover and ensure the children do not get trampled
- Stay in a protected place until shaking stops
- If we are in a vehicle with children, Green Planet Daycare will pull over, stay away from bridges, overpasses, and buildings, while remaining in the vehicle.

Emergency Supplies: Green Planet Daycare prepares emergency kit that last up to 72 hours. We have the following supplies that is stored in a secure place, ideally from the outside:

- First aid kit and attendance record a pen/pencil, and emergency information card for each child.
- Shelter a plastic tarp or small tent
- Blanket, extra clothing
- Emergency blankets
- Water at least 4 litres per person per day
- Food, such as canned goods, dried fruit, canned juice, can opener
- Battery operated or hand crank generator radio and flashlight.
